The screenshot shows the DDialer dashboard. On the left, there is a sidebar with various menu items: Dashboard, Send SMS, Recharge, KYC Verification, SMS Logs, API Info (which is highlighted in blue), and Logout. The main content area has a purple header with the text "Welcome back, Sazzadhosain_infinite_tech". Below the header, it says "Here's what's happening with your account today". A central box titled "API Access Information" contains fields for "Your API Key" (with the value "i1zL/M4dZuXboDwH265NAPmrc3DMehz8hE2vJyJIvvk=") and "Your Client ID" (with the value "594f4827-d3ba-4903-9087-a83979f0989f"). Below these fields, there is a section titled "API Usage Instructions" with details about the base endpoint (https://sms.ddialer.xyz/api/send_sms.php), required headers (X-API-Key and X-Client-ID), request method (POST), and parameters (receiver, message, sender_id). A "CHAT SUPPORT" button is located in the bottom right corner of the main content area.
